

Dear Jeff and family;

I would like to thank you for the warm hospitality I received by you and the car-part.com staff.

It is my first time I attend to any trade show, I am glad it was yours and I thank Manuel H. for inviting me. My visit to Kentucky was well worth the trip; I really enjoyed all the nice people out there and specially the good food. Car-part.com is a great company; I have been a customer for more than five years and don't plan on leaving you guys. I like the fact that car-part.com is

always innovating and trying to keep us yards on the competitive edge, this method helps us

network and sell our parts amongst other yards, body shops, insurance companies and the general public as well. At Calexico Auto Dismantlers we are glad we came across your services, we had previously been using Income net or Auto skill which I will never go back to using them.

My experience with Auto skill was horrible and like I said I don't plan on going back. I really enjoyed the trainings we received in which I learned a lot from them, all the car-part.com staff is very knowledgeable on what they are doing. I am excited and waiting for next year's event.

Thanks for everything, this experience is an unforgettable one, it gave me the chance to meet fellow yard members, people who I only knew by phone or through the car part messenger.

Hopefully more yards show up next year, for those shops that didn't show up they did miss on a great deal of fun and learning. Again I appreciate the warm welcome, friendly environment and all that you guys did for us.

all that you guys did for us.

P.S. I will bring some tequila with me next year. :) also the food was great. Thank You,

Pablo Virgen Jr.
