

## Checkmate 2020R4 New Features Guide

The main feature in Checkmate 2020R4 is new interchange: Car-Part Interchange version 86.1. For that information, please see the **Car-Part Interchange Release Notes** document.

We have also recently added 2 new Checkmate Reports:

- **Car-Part Interchange Plus (CPI+) Sales Report**
- **BMW Airbag Recall Report**

Keep reading to learn more!

### ***Car-Part Interchange Plus (CPI+) Sales Report***

The **CPI+ Sales Report** lists part sales for CPI+ parts during a specified date range. For each CPI+ part type, it lists the dollar amount of sales, the number of sales, and the average dollar amount per sale.

To run the report:

1. In Checkmate Workstation, click the **Reports** icon.
2. In the **Sales** category, double-click on **CPI+ Sales Report**.

The screenshot shows the Checkmate Workstation interface. The top toolbar contains various icons, with a red circle labeled '1' highlighting the Reports icon. The Reports menu is open, showing a list of reports categorized by Sales, Management, Round Table, Statements, Buying, and Inventory. A red circle labeled '2' highlights the 'CPI+ Sales Report' option under the Sales category. A text box on the right side of the interface provides a description of the report: 'This report lists Car-Part Interchange Plus (CPI+) part sales for a specified date range. This shows you the value of parts sold with CPI+. It includes a separate section for Mitsubishi and Mazda sales. The following columns will be displayed for this report: Part Code, Part Name, \$ Sales, # Sales, Avg Sales. Note: Parts with "Additional" interchange may not be included in this report. "Additional" interchange is a type of CPI+. For these parts, Hollander supplies interchange for this part for a certain year range, and CPI+ fills in outside of that year range.'

3. The **Enter Values** window opens. Make selections in the following fields:
- **Yard:** Select the yard you want to include sales for.
  - **Enter Start and End Date:** Set the date range you want to include sales for.
  - **Sort Option:** Select the order you want CPI+ sales to be listed in:
    - **Part Code – Ascending**
    - **\$ Sales – Descending**
    - **# Sales – Descending**

The screenshot shows the 'Enter Values' dialog box with the following fields and options:

- Select Yard:** A dropdown menu with a small 'Yard' label on the right.
- Enter Start Date:** A text input field with a calendar icon and the instruction "Please enter Date in format 'yyyy-mm-dd'." and a "Start Date" label on the right.
- Enter End Date:** A text input field with a calendar icon and the instruction "Please enter Date in format 'yyyy-mm-dd'." and an "End Date" label on the right.
- Select Sort Option:** A dropdown menu with "Sort By" label on the right, currently showing "\$ Sales - Descending".

At the bottom right of the dialog are "OK" and "Cancel" buttons.

4. Click **OK** to run the report.

**Note:** CPI+ parts that have a coverage type of *Additional* may not be included in this report. The three CPI+ coverage types are as follows:

- **Additional** – Hollander supplies interchange for a certain year range; CPI+ fills in outside of that year range.
- **Supplemental** – CPI+ coverage is added for specific manufacturers that Hollander no longer covers (currently, Mitsubishi, 2009 models and newer, and Mazda, 2015 models and newer).
- **Full** – All interchange is CPI+.

The report lists the sales for each CPI+ part at the selected **Yard** within the date range you selected. Sales for Mazda models (2015 and newer) and Mitsubishi models (2009 and newer) are grouped separately.
