Getting Started

From Checkmate Workstation, click the **eBay** button in the top menu to open Checkmate Listing Manager.

Search Inventory for Parts to List

The process of listing parts from Checkmate begins with an inventory search. On the **eBay** tool, you can look up parts in your inventory and then list them on eBay.

There are several ways to conduct a search:

- Enter the **Part** you are looking up, or use the drop-down to select from a list of parts.
- Enter the part's **Interchange** number.
- Enter the **Year** and **Model**, or use the **Model** drop-down to select from a list of models.
- Enter the part's **Stock** number.
- Enter the part's **Tag** number.
- Enter the part's **Location**.
- Check the **eBay Active Listings ONLY** checkbox to only view parts that are currently listed on eBay.

Click **Search Inventory** to search, or click **Reset** to clear the search criteria.

Inventory Results

The **Checkmate – Inventory Search** tab displays available parts in your inventory that match your search.

Images

If images are associated with a part, a camera icon will display in the **IMG** column of the **Inventory Results**. The number listed in this column indicates how many pictures are associated with this part. If this number is followed by the letter **A**, this indicates that the photos are from the vehicle's AUT record.

Note:

This number includes any **Private** images in Checkmate. However, private images will *not* upload to eBay listings.

Remove Selected Items

The red X button  removes all of the selected items from the **Inventory to send to eBay** list.

1. Check the part(s) you would like to remove from the **Inventory to send to eBay** list.
2. Click the red X button  to remove the selected parts from the **Inventory to send to eBay** list.

Search and Replace

The binoculars button  allows you to **Search and Replace** the text in a part's data (**Template**, **Description**, **Title**, etc.). To use this function, follow these steps:

1. Check the items you would like to use the **Search and Replace** function on.
2. Click the binoculars button. 

3. The **eBay Search and Replace** window opens. Select the **Data** type you would like to apply changes to. Select the **Search/Action** you would like to perform. If applicable, fill out the **Text** fields with the appropriate information.
4. Click **Accept** to perform the selected function on the selected parts.

Filter for Items with Listing Problems

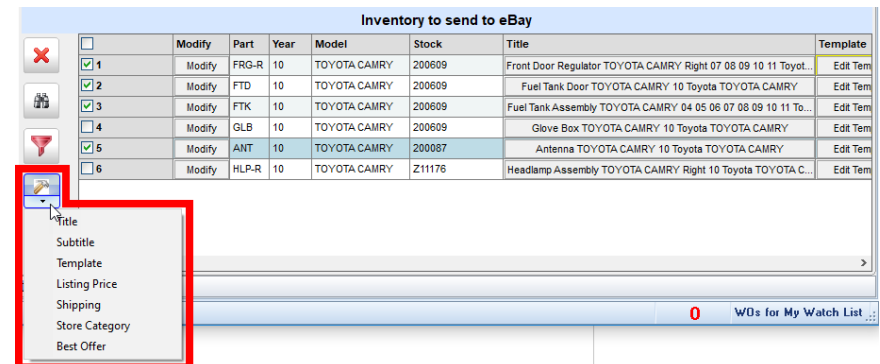

The red filter button  identifies any errors before parts are sent to eBay. Click this button to see only parts with errors such as empty descriptions, invalid shipping fees, etc. After clicking the filter button, any areas that have problems will be highlighted in red, so you can edit the information before listing the part.

Mass Modify Items

The hammer button  allows you to edit multiple listings at once. It makes the same change to every checked listing. Follow these steps:

1. Check the items you would like to be modified.
2. Click the hammer button. 
3. Select the field type you would like to edit.

4. In the window that appears, follow the prompts to specify the change you would like to make.
5. Click **Apply** to apply your changes.

 **Warning:** This change will be made to every part you selected in your list, and it cannot be undone (except manually).

Modify Part

The **Modify** button allows you to view or modify the listing for individual parts. Click the **Modify** button on any part to view or change the listing for that specific part.

The **eBay Listing Editor** window opens. From here, you can view and edit:

A. Title, Sub Title, and Inventory Description

B. Pricing information and shipping fees

- **Percentage Modifier** adds or subtracts from the listing price. To subtract from the listing price, add a dash (-) in front of the value you enter. Click **Set %** to save changes.
- Select **Retail**, **Wholesale**, or **Custom** for the listing price
- Check the **Immediate Payment** checkbox to require immediate payment.

C. Part's listing description

- Check the **Edit Mode** checkbox to allow editing.
- Click **Load Original Template** to load the standard listing template. (If you created a template for a specific part code, then this button will load that per-part template).
- Click **Test Template** to view the template in your web browser.

D. Best Offer parameters

- Check **Use Best Offer** to use this feature.
- **Best Offer Auto Accept** sets a price that you will automatically accept.
- **Minimum Best Offer** sets a minimum price you will accept.

- E. **Free Shipping, Freight Shipping Quote, and International Shipping** – Check the checkboxes to include these shipping options.
- F. **Item Specifics** – Click this button to open the **Item Specifics** window for the part. (For more info, see the [Item Specifics](#) section of this guide.)

The screenshot shows the eBay Listing Editor interface. Red callout letters are placed over specific elements:

- A** points to the Title field.
- B** points to the Listing Price and Shipping Fee section.
- C** points to the Item Specifics button.
- D** points to the Best Offer Auto Accept field.
- E** points to the Free Shipping checkbox.
- F** points to the Inventory Description field.

When you are finished, click **Finished** or **Next Listing** to save your work on this listing.

Note:

Clicking **Cancel** only cancels changes to the visible listing. It does not cancel changes to previous listings.

Policies

You can use the **Policies** column to assign eBay Business policies to a part. To change the Business Policies of a specific part, click **Policies** in its part line.

Note: To map eBay Business Policies to parts in Checkmate, you will first need to receive authorization from eBay. See our full **Checkmate Listing Manager for eBay - User Guide** for information on this process.

Item Specifics

You can use the **Item Specifics** column to add eBay Item Specifics to a part. To add Item Specifics to a part:

1. Click **Item Specifics** in its part line.

Inventory to send to eBay									
	Modify	IMG	Part	Year	Model	Stock	Title	Policies	Sub Title

3. A new window opens. Enter the value for the Item Specific. You can:
 - a. Right-click a check the box to apply one of the **eBay Supplied** options (if available), and move directly to the next Item Specific.
 - b. **Enter Your Own Text** in the text box. When you're done typing, hit **Ctrl + Enter** to apply the Item Specific, and move on to the next Item Specific.
 - c. Click the **Description** button to copy the part's Description from your inventory data into the **Enter Your Own Text** field. Then hit **Ctrl + Enter** to apply the Item Specific, and move to the next Item Specific.

- If you want to skip an Item Specific, you can click the **Next** button to move on (parts missing **REQUIRED** Item Specifics can't be listed to eBay).

- Repeat this process until you've added all desired Item Specifics (including all **REQUIRED** and **RECOMMENDED** Item Specifics will boost the part's searchability on eBay). When done, click **Save**.

- The window closes, and the Item Specifics you added show in the **Value** column. Click **Close** to exit the **Item Specifics** window.

Send Parts to eBay

When you are finished editing your listings, and you are ready to create listings for all of the parts listed in the **Inventory to send to eBay** list, click the blue **Send Inventory to eBay** button to create these listings.

You will be warned if you try to list an item with errors. In the **eBay Listing Errors** window, the row numbers represent the part's location in the **Inventory to send to eBay** list. Items without errors will still upload to eBay, but items with errors listed in this window will *not* upload. To list these items, **Close** this window, address the errors, and click **Send Inventory to eBay** again.

Parts that have been uploaded and have listings on eBay will turn blue and display an **eBay\$** button to indicate that they have been listed. Click this button to view the eBay listing in your browser window.

eBay – Sold Listing

The **eBay – Sold Listing** tab displays any parts that you have sold on eBay during a specified period of time. This tab lists details about each sold listing (e.g., **Title**, **Sold Date/Time**, and **Price**). Along the bottom of the screen, this tab lists the number of **Sold Items** and the **Price Total** of those items. This part of the screen also shows the number of **Refunded Items** and the **Total Refunded** amount.

From here, you can:

- Click the printer button to **Print Sold Listings**.
- Click the spy glass search button to enter a keyword in the **Find text** window. Select the method of the search, and then click **Ok**. Checkmate Listing Manager will highlight items that match this criteria.
- Use the **Days to List** drop-down to select the number of days' history to show in this list.
- Click the blue refresh button to refresh the information on this tab.

 - Resend Images** updates the images uploaded to eBay if you have added to or made changes to the images displayed in Checkmate
 - Update Template** updates the template used in the listing if you have made any changes.

Once you have begun a mass modify function, it may take a long time. (The time it takes depends on how many parts you modify. Modifying a few parts will only take seconds. Modifying tens of thousands of parts may take several hours.) In the window that appears, you may click the stop sign button to abort the mass modification. If you abort the operation, Checkmate Listing Manager will stop wherever it is in the process of modifying parts.

In the **eBay Edit Listing** window, you can edit the **Listing Price**, **Listing Title**, and **Template**. When you are finished with your changes, click **Accept** to upload these changes to eBay. Click **Cancel** to cancel without uploading changes.

eBay – Relist (Refresh Listings)

The **eBay – Relist** tab helps refresh stagnant listings. Listings that have been on eBay for a long time often have poor visibility in search results, so refreshing listings helps shoppers see them.

This feature delists the item, changes the eBay ID (but leaves all other info the same), and relists it. You get a refreshed part listing that's treated like a new listing in eBay search results.

Note: During this process, you can't do other work in Checkmate.

Caution! We recommend checking your eBay subscription. **There may be fees for relisting parts if you exceed the number of listings that are allotted for your subscription.** eBay fees depend on your subscription.

To refresh listings:

1. Click the **eBay – Relist** tab.

2. Select a **Date Option** to specify which listings you want to work with.

Relisting Parts Returned from eBay

If a part was sold through eBay, you can relist it during the return process. The new listing will automatically include the info from the original listing.

Note: Don't relist items through your eBay store. Only use Checkmate to relist parts, to ensure that eBay and Checkmate inventory stay synced.

While returning a part in Sales Pro, on the **Credits / Returns** tab, find the **Relist to Ebay** column. Parts that had been listed on eBay will have a drop-down here. Select **Yes***, to relist the part when you Print (or save) the Credit Work Order or Credit Invoice.
